progression in suspension

Dear Powerflex Partner,

Powerflex is proud to announce a full range of suspension bushes developed to suit **Subaru Forester SH 05/08-on**.

Whilst developing the range of Powerflex low compliance polyurethane bushes for the Impreza, a new range of Geometry Adjustable Components (**GAC**) bushes has been introduced to allow on-car camber and caster adjustment as well as incorporating revised AntiLift geometry where possible. All **GAC** bushes are supplied with the dedicated adjustment tool and detailed installation guides.

Key **GAC** for the Forester;

PFF69-502G

ANTI-LIFT CASTER ADJUST-FRONT ARM REAR BUSH

This product is designed to replace front lower control arm-rear bush, and is engineered to provide;

- revised front ANTI-LIFT geometry
- on-car CASTER adjustment
- adjustment range +/-0.33 deg
- low compliance ball & socket bush design for maximum performance
- improved front traction and reduced understeer
- improved high speed stability
- improved steering feel and feedback

PFR69-510G

CAMBER ADJUST-REAR UPPER ARM FRONT BUSH

PFR69-511G

CAMBER ADJUST-REAR UPPER ARM REAR BUSH

These products are designed to replace rear upper control arm front and rear bushes, and are engineered to provide;

- on-car CAMBER adjustment
- adjustment range +/-1.0 deg
- low compliance bush design for maximum performance
- ideal for any car due to lack of factory adjustment
- highly recommended for lowered vehicles

Please note: PFR69-510G & PFR69-511G must be fitted together as a complete matching set.

For full product listing, please refer to Powerflex-Subaru Forester SH website catalogue page

Until next time, the Powerflex Team.
