

INSTALLATION GUIDE

Contents (parts per pack):

1x A Insert 1x B Insert 1 x Grease

Please read the complete fitting instructions and check package components before fitment. These fitting instructions are to be used as a guide and in conjunction with workshop manual.

It is recommended that:

- all work to be carried out by a licensed technician;*
 - all safety precautions adhered to;*
 - wheel alignment to be checked and adjusted as required after any suspension work.*
- All fasteners must be tensioned to manufacturer's torque settings.*

Fitting Instructions:

1. Undo and lower the bracket which houses the transmission mount to access the mount voids. Fig A.
2. Clean any dirt or debris from inside of the transmission mount voids.
3. Apply some of the supplied grease into the voids of the mount.
4. Fit 'A' Insert into the voids of the mount and then fit 'B' insert from the other side of the mount. Fig B.
5. Refit housing bracket back onto car and tension all hardware to manufacturers recommended torque settings.
